NEURALINK

Neuralink is developing ultra high bandwidth brain-machine interfaces to connect humans and computers.

We are looking for exceptional engineers and scientists. No neuroscience experience is required; talent and drive matter far more. We expect most of our team to come from other areas and industries.

We are primarily looking for evidence of exceptional ability and a track record of building things that work.

All positions are full time and based in San Francisco. For positions not listed, you can reach us at jobs@neuralink.com.

- Digital Designer (Verilog , C/C++)
- Electrical Engineer
- IT Engineer
- Purchaser
- Senior Mechanical Engineer
- Software Engineer, Full Stack
- Software Engineer, Robotcist
- Talent Acquisition

The diagram illustrates the evolution of customer segments. It starts with a pyramid divided into three horizontal sections. An arrow points to a funnel shape, also divided into three sections labeled 'Premium' (top), 'Standard' (middle), and 'Economy' (bottom). A second arrow points to a collection of various-sized circles, representing individual customer segments.

Kundensegmente der Zukunft:
Standard schwindet, Economy und Premium prägen

Langfristig:
Segment of one

The screenshot shows a mobile app interface. At the top, it says 'Telekom.de LTE', '12:41', and '78%' battery. Below that, 'Duration 00:19'. The main content area has a blue background with the word 'creativity' in white. Underneath, it says 'Creative. Achiever. Sense of purpose, ideological belief.' There is a central illustration of a person's head with radiating lines and smaller icons around it. At the bottom, there is a microphone icon and a play button.
